## The Partnership for Advanced Technology in Housing

**BYLINE:** Henry Ng

**SECTION:** Residential; Pg. 143 Vol. 196 No. 1

**LENGTH:** 104 words

The Partnership for Advanced Technology in Housing (PATH), an initiative administered by HUD, recently announced its first Top 10 Technologies for remodeling homes. The initiative's main goal is to advance technologies that improve the environmental performance, affordability, and overall quality of America's housing. The top three technologies are air sealing with spray foam insulation; smart ventilation/ventilation control systems; and HVAC sizing. For the full list and more information about PATH, go to [www.pathnet.org](http://www.pathnet.org) ONLINE: Rate these projects and access additional sources at [architecturalrecord.com/residential/](http://architecturalrecord.com/residential/).
